

We have granted you access to our nexus server, your credentials are as follows :

username: **<UPDATE THIS>**

password: **<UPDATE THIS>**

The maven setup is as follows, please replace the **username** and **password** below, with those you have been provided with.

```
<servers>
  <server>
    <id>chronicle-enterprise-release</id>
    <username>username</username>
    <password>password</password>
  </server>
  <server>
    <id>chronicle-enterprise-snapshots</id>
    <username>username</username>
    <password>password</password>
  </server>
  <server>
    <id>third-party-release</id>
    <username>username</username>
    <password>password</password>
  </server>
</servers>
```

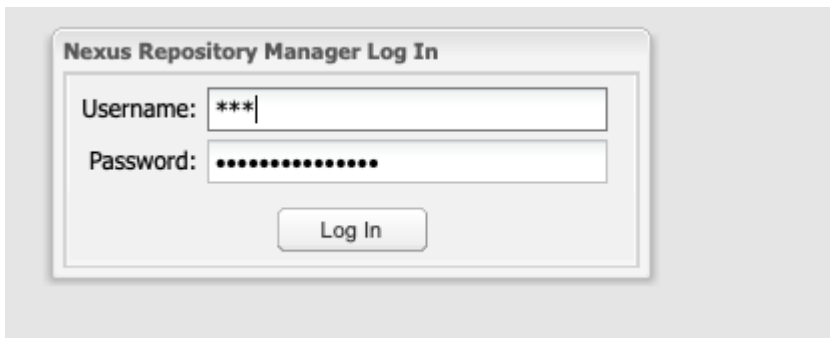

You won't have access to our nexus UI, but to view the artifacts you have access to in a web browser navigate to:

<https://nexus.chronicle.software/content/repositories/releases/>

you will first be asked to authenticate, click on **login**

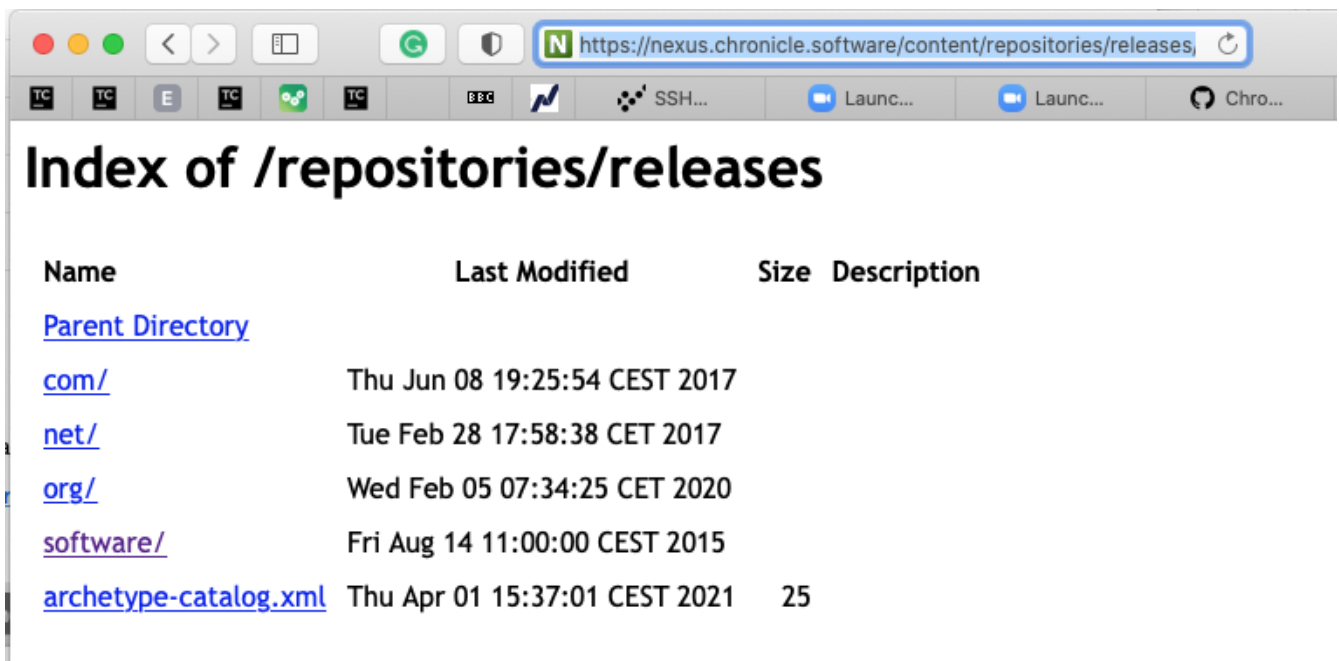

and enter your username and password.

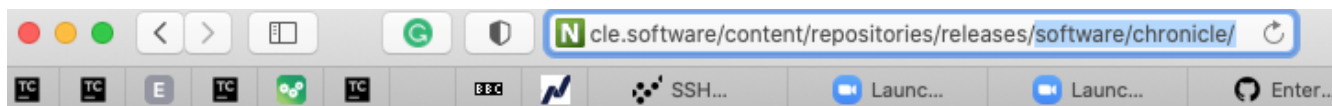

once you have authenticated in, and in **the same browser session**, please go to the following URL:

<https://nexus.chronicle.software/content/repositories/releases>

for here you can see what artifacts are available.

I suggest click on **software** then **chronicle**.

## Index of /repositories/releases/software/chronic
